Int J Biomed Computing, 22 (1988) 309—310
Elsevier Scientific Publishers Ireland Ltd.

INTERNATIONAL JOURNAL OF BIOMEDICAL COMPUTING

CONTENTS

Volume 22 (1988)

Publishers note 1
Commentary ..... 3—7
Computer aid for AIDS
Programmed protocols for magnetic resonance imaging (MRI)
Psychiatrists for machines
J.G. Llaurado (U.S.A.)
Statistical pattern classification of clinical brainstem auditory evoked potentials
M.V. Kamath, S.N. Reddy, A.R.M. Upton, D.N. Ghista and M.E. Jernigan (Hamilton and Waterloo, Canada) ..... 9—28
A mathematical model for analyzing beat-to-beat difference in the human fetal heart rate during gestation and labor
T. Koyanagi, H. Nakahara, E. Hori, K. Hara and H. Nakano (Fukuoka, Japan) ..... 29—37
CADCS simulation of the closed-loop cardiovascular system
G. Avanzolini, P. Barbini, A. Capello and G. Cevenini (Bologna and Siena, Italy) ..... 39—49
Quantitative analysis of intestinal electrical spike activity by a new computerized method
F. De Ponti, A. Bonabello, L. D'Angelo, G.M. Frigo and A. Crema (Pavia and Milan, Italy) ..... 51—64
A simple program in basic for the one-way analysis of variance of experimental data
M.E. Abdullah, A. Syed, A. Bener and T. Al-Ohali (Riyadh, Saudi Arabia) ..... 65—71
Announcements ..... 73—75

Commentary ..... 77—81
Metanalysis: a new scientific endeavor
Satellite tracking of arctic animals
Thalamotomy guided by computer for Parkinson's treatment
J.G. Llaurado (U.S.A.)
A data compression algorithm for the electroencephalogram
C. McLoughlin, J.C. Principe and J.R. Smith (Gainesville, FL) ..... 83—95
A new method of presentation of the average spectral properties of the EEG time series
K.J. Blinowska, P.J. Franaszczuk and P. Mitraszewski (Warsaw, Poland) ..... 97—106
Microcomputer application of Bayesean probability testing for the identification of bacteria
B.J. Jilly (Chicago, IL) ..... 107—119
Evaluation of densitometry data using interactive computer graphics: application to DNA agarose gels
S.E. Freeman and B.D. Thompson (Albuquerque, NM) ..... 121—133
A study of the expectational model for tumor growth
X. Xu and Y. Ling (Shanghai, China) ..... 135—141
The correction of ultrasonic image analysis features for their depth dependence
D.T. Morris (Sheffield, U.K.). ..... 143—152
Book Reviews ..... 153—154
Acknowledgement to Reviewers 155
Announcement 157

Commentary ..... 159—164
EXPERT valuation of aspartate aminotransferase (AST) elevations: a forerunner of sequential laboratory testing
Microwave technology to video monitor patients
Programmed pumping of drugs through the skin
J.G. Llaurado (U.S.A.)
A basic library of microcomputer programs to obtain immunologically relevant information from protein sequences
A. Sette, G. Doria and L. Adorini (Rome, Italy) ..... 165—181
Application of a microcomputer-based system in the analysis of infection data at the emergency units of a large hospital
M.A.L. Nicolelis and Y. Chia Hong (Sao Paulo, Brazil) ..... 183—198
An improved method to evaluate the precision of computer ECG measurement programs
D. Morlet, P. Rubel, P. Arnaud and J.L. Willems (Lyon and Villeurbanne, France and Leuven, Belgium) ..... 199—216
Development of an expert system for preoperative assessment of female urinary incontinence
P.A. Riss and H. Koelbl (Vienna, Austria) ..... 217—223
A rapid computerized method for quantitation of cellular mediated immunity in biological systems
E.K. Barbour, J.A. Newman and J. Sasipreenyajan (St. Paul, MN) ..... 225—231
Tracking patient demographics and disease categories in a primary care residency
G.L. Wergowske, K. Goldenberg and H.V. Barnes (Dayton, OH) ..... 233—238
On automatic diagnosis of pathological saccadic eye movements
M. Juhola (Turku, Finland) ..... 239—250
HLA-based local donor/recipient matching in renal transplantation: a microcomputer program
G. Offermann (Berlin, F.R.G.) ..... 251—257
TURBOLYTIK: A peptide cleavage program for personal computers
T.S. Pilay (Cambridge, U.K.) ..... 259—264
A computerized system for learned helplessness experiments
A. Parra, M. Somoza, P.R. Sanberg, A. Guillamon and E. Somoza (Cincinnati, OH, Chicago, IL, Madrid and Valencia, Spain) ..... 265—271
A system for the automated data-acquisition of fast transient signals in excitable membranes
J.O. Bustamante (Nova Scotia, Canada) ..... 273—283
The use of a microcomputer to analyse differences between histograms derived from flow cytofluorimetric measurements
R.A. Brown, J. Kelk and J.S. Beck (Dundee, U.K.) ..... 285—293
Statistical analysis of censored motion sickness latency data using the two-parameter Weibull distribution
W.J. Park and G.H. Crampton (Dayton, OH) ..... 295—301
Subject Index Volume 22 (1988) ..... 303—306
Author Index Volume 22 (1988) 307
Contents Volume 22 (1988) ..... 309—310
